### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance: The closest prior art, Geczy (2003/004552) and Grodzinska et al., fail to teach a method of attenuating development of atherosclerosis. The prior art teaches that molsidomine is utilized for the treatment of angina and to correct EDRF in patients effected with peripheral atherosclerosis. Therefore, the treatment of the underlying disease, atherosclerosis, is not rendered obvious by the teachings of the prior art. The novelty of the present invention is that 14-24 mg of molsidomine is administered daily over period of at least six months to suppress the development of atherosclerosis, whereas the Geczy only teaches the administration of molsidomine to treat angina and specific length of administration is not disclosed. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to DANIELLE SULLIVAN whose telephone number is (571)270-3285. The examiner can normally be reached on 7:30 AM - 5:00 PM Mon-Thur EST.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Johann Richter can be reached on (571) 272-0646. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
